Mike Craig and Sasha Taylor

Mike and Sasha produce beautiful art and music to make your home or business a more inspiring environment

Sasha and Mike work together as graphic artist and photographer to produce art which is quite different from the norm. Their pictures range from the tranquil to the dramatic. There is bound to be something for everyone:

- * Natural pictures of flowers and landscapes to bring calm into a room
- * Fun pictures, full of vibrant colours, suitable for children's rooms or upbeat living areas
- * Tranquil abstract art, most containing all the colours of the rainbow - some in pastel colours, some vibrant
- * Artistically tasteful sensual pictures which would look good in any modern home.

Sasha has also studied meditation and the inducing of relaxing brain waves for effective meditation. Using her musical talent she has produced a lovely CD. There is a relaxing narrative at the beginning to help the listener to unwind. This is followed by about 50 minutes of beautiful music, taking the listener into a calm and relaxed state.
